Alberta Public Interest Research Group Working Groups

Service type	Monetary funding, knowledge
Provided by	Alberta Public Interest Research Group
Available to	Any group of students
Website	APIRG website

One of the main focuses of APIRG is to provide funding and support for Working Groups. Working Groups are collectives of U of A students and community members who come to APIRG with their ideas and passion for change. They work together on an issue that falls within the APIRG mandate, with a focus on research, events, actions, publications, or other diverse activities. Working Groups represent the diversity of our membership and often introduce people to the organization.

For some historical perspective, see the list of former Working Groups, or browse through the current Working Groups to see the wide range of work that APIRG supports. For information on how to apply to start a Working Group please visit the Working Group Funding page.
